

Activity 2025

Hard track work was done for 3 days on Mount Brown following the Ranger's concern.

Considerations for cheaper leaflet arrangements stirred serious digging at Oraparinna. Leaflet use seems to be consistent, in spite of App getting regular use and compliments.

For the first time in 30+ years we were unable to spend any time at Terrapinna because one day of solid rain closed all our roads.

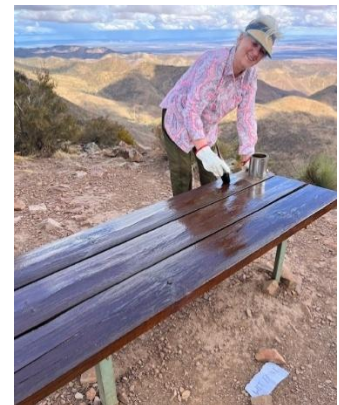

Not enough for creeks to run, and the country was still very dry. But priority work was done after 2 days rest at Balcanoona. Not many flowers to see.

Here are some reminders
